PROTECTION · MESSAGING

Say what is true.

A quick check before every creator post.

UNIUI DOC 07 FIELD GUIDE

THE STANDARD

Trust is built one accurate post at a time.

Use only claims supported by your actual experience and current product information. Feature availability can change; when you are unsure, ask the UNIUI team before publishing.

APPROVED CLAIMS

WHEN ACCURATE

You can say...

"UniUI helps me study smarter."

"UniUI can answer academic questions with sources."

"I use UniUI for my coursework."

"UniUI is built for Nigerian students."

CHECK FIRST

Only if verified...

"It's free to try." Use this only if the current offer is confirmed.

A feature is live, available to all users, or works in a specific way.

A result, saving or outcome happened to you personally.

DO NOT SAY

AVOID

No guaranteed outcomes

Do not say UniUI guarantees better grades, passes or academic success.

AVOID

No assignment replacement

Do not say UniUI does assignments for students or should be submitted as their work.

AVOID

No perfection claims

Do not say UniUI is 100% accurate or never makes mistakes.

AVOID

No unsupported comparisons

Do not make claims about competitors or imply university endorsement without approval.

DISCLOSURE + SAFE MESSAGING

Make your creator relationship visible.

EVERY POST

Required disclosure

Every post must include “I’m a UNIUI creator” or #UniUICreator. Place it where a viewer can notice it; do not hide it among unrelated tags.

CAMPAIGN TAG

Tag the brand

Tag @UniUI where the platform supports it and the campaign asks for a tag. Use #UniUICreator where appropriate.

SAFER ALTERNATIVES

ACCURACY

Instead of “It never gets anything wrong”

Try: “I checked this answer against the source it showed. Here is what I found.”

OUTCOMES

Instead of “It will get you an A”

Try: “I used it to review this topic. I still checked my notes and course guidance.”

ACADEMIC INTEGRITY

Instead of “It does my assignment”

Try: “I used it to understand a concept; the submitted work and final answer are mine.”

AVAILABILITY

Instead of “This feature is available to everyone”

Try: “This is what I could access in my account today.”

KEY POINT

Before you publish

Can you verify each product statement? Is the feature live? Is the disclosure clear? Does the post avoid promises about grades, accuracy or assignment completion? If any answer is no or uncertain, pause and ask the team.

QUICK REVIEW

A 30-second pre-post check.

CHECK

I am describing a real experience, not a copied or imagined testimonial.

I tried it

CHECK

Any source, answer or feature claim matches what I actually saw.

I checked it

CHECK

“I’m a UNIUI creator” or #UniUICreator appears clearly.

I disclosed

CHECK

No personal data, private student details or confidential assessment content is visible.

I protected privacy

CHECK

No guaranteed grades, perfect accuracy, assignment replacement or competitor claims.

I stayed in bounds

CHECK

The UNIUI team has reviewed uncertain release details or wording.

I asked when unsure

IF UNSURE

If you are unsure, do not guess. Ask in the creator group before the post goes live.

This guide is operational messaging guidance for creators; it is not legal advice.
